01

Menu Tab >>> Exhibitors Directory and click on the filter icon

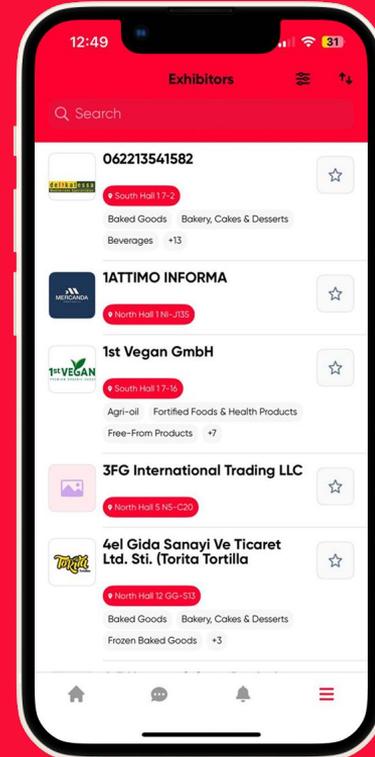

02

Select any relevant filter and click on the "Show Results" button

03

Access exhibitor list with corresponding filters

# **BADGE SCANNING & LEAD CAPTURE TOOL**

# Lead Capture Tool (MOBILE)

Lead capture tool enables scanning of visitor badges at the exhibitor stand is available for exhibitors and team members.

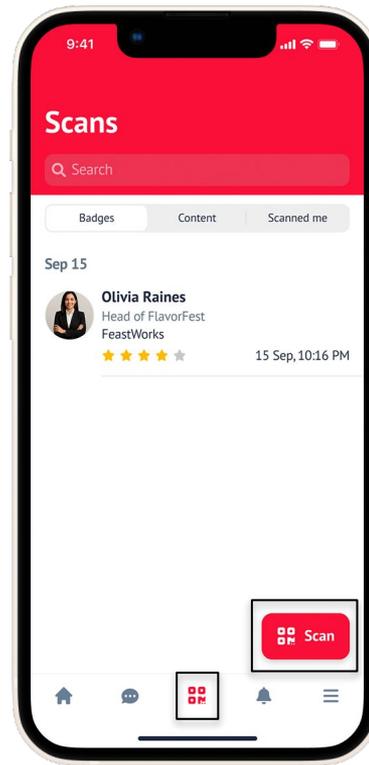

### What can you do?

- Scan badges via "Scan" button
- See the list of all badges you have scanned
- Capture leads of all visitors and exhibitors
- Rate and categorize leads
- Add notes as an exhibitor team member
- Customize the questions.

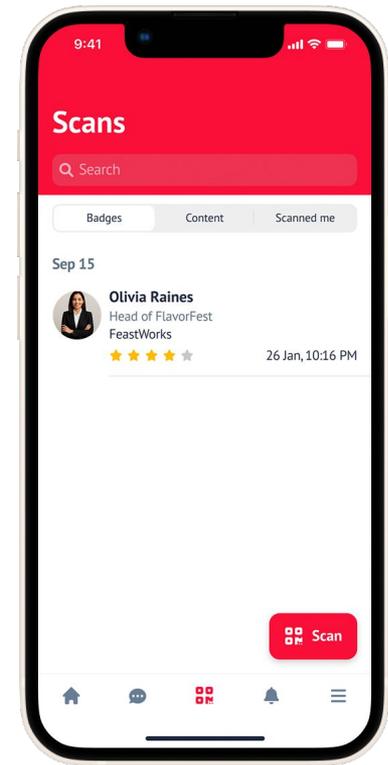

**Export your leads from the mobile app by clicking the 'EXPORT' button on the top right. You will receive an email, containing a list of leads compiled in an excel file.**

*\*to export the consolidated lead report of your team, please log in to your account via your email address on the website and switch to your company account.*

*\*\*via our scanner you are allowed to scan any qr-codes, however, as leads only registered users' badges will be captured*

View your leads, export them or scan new leads

As an exhibitor team member score your leads, make notes & edits

# DOWNLOADING YOUR LEADS (WEB)

Lead capture scanning of badges is available for visitors and exhibitor team members

Downloading leads is also available on the Web App: [Link](#)

- **Exhibitor Company:** login using exhibitor portal credentials and request code via OTP.
- **Team members/Visitors:** can login using their email which was used for registration via OTP request

*\*to export the consolidated lead report of your team, please log in to the company account via the Username used on e-zone, the OTP code will be sent to email & phone number registered with e-zone.*

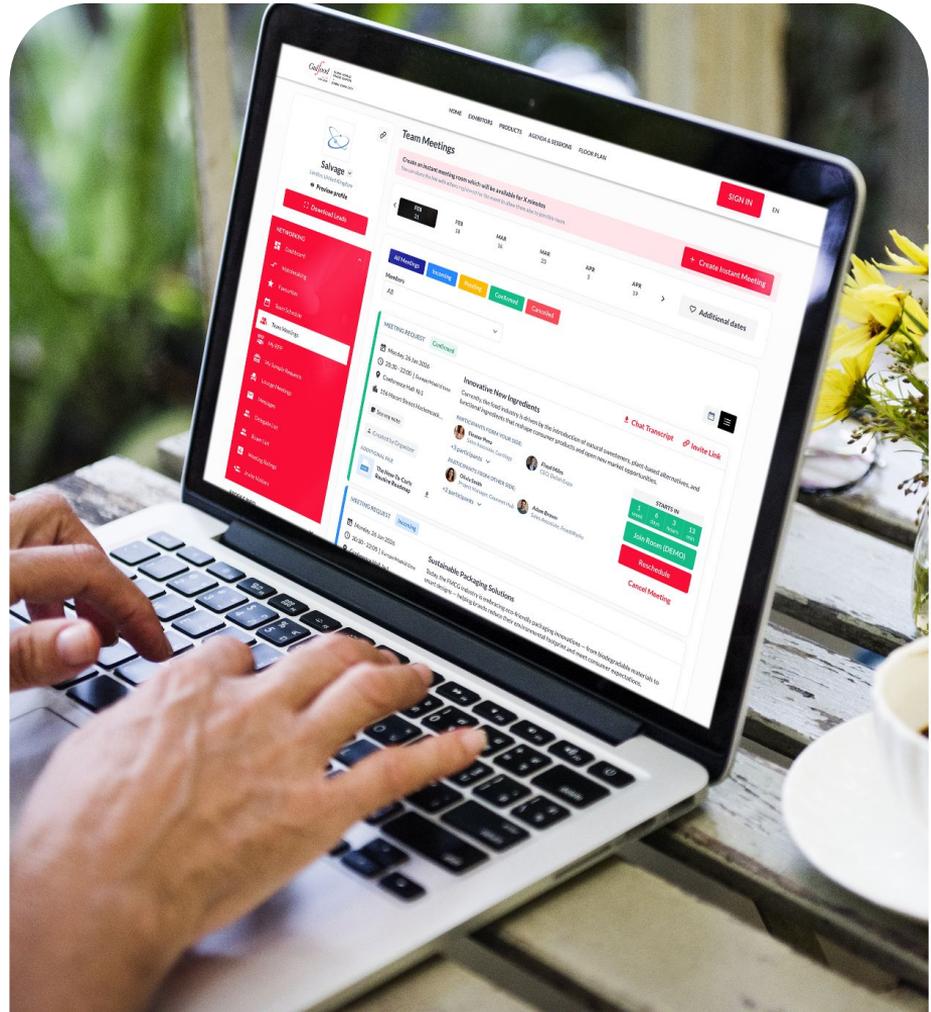

After signing in → users will land on their personal profiles  
 Click Download leads on the profile → the system will generate an excel file consisting of all the leads that were scanned during the show. The company account admin will receive all leads scanned by all members.

The screenshot displays the Gulfood 2024 user dashboard for a user named Salvage. The dashboard includes a navigation menu on the left with options like Dashboard, Recommendations, Matchmaking, and My Schedule. The main content area shows a profile completion progress bar at 80%, meeting requests (75 total), page likes (340), profile views (234), and activity feed. A bottom section shows interactions with a visitor named Christian Farell.

# FAQs for Lead Scanning functionality

## 1. How do I get the lead scan tool?

Purchase it directly through the exhibitor portal for AED 1,000.

## 1. Where can I find the tool?

Download the official Gulfood mobile app and log in with your registered email which is used for your exhibitor badge.

## 1. Can my team members use it too?

Everyone from your company who's registered with an exhibitor badge will have access once they log into the app with their registered email.

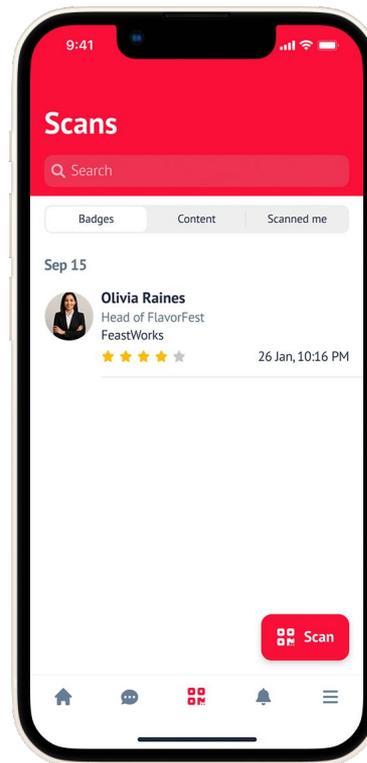

## 4. What happens to my scanned leads?

You can download all your captured leads directly from the app in Excel format - perfect for quick follow-ups and CRM integration.

## 5. Can I organize my leads on the spot?

After each scan, you can rate visitors, add comments, and write notes and downloads with your lead data. You can also customise the questions that you want to ask.

Note: There is a cap on number of badges that can be scanned for each exhibiting company. The cap is 500 scans.

# How to customise the Lead capture tool questions.

## STEP BY STEP

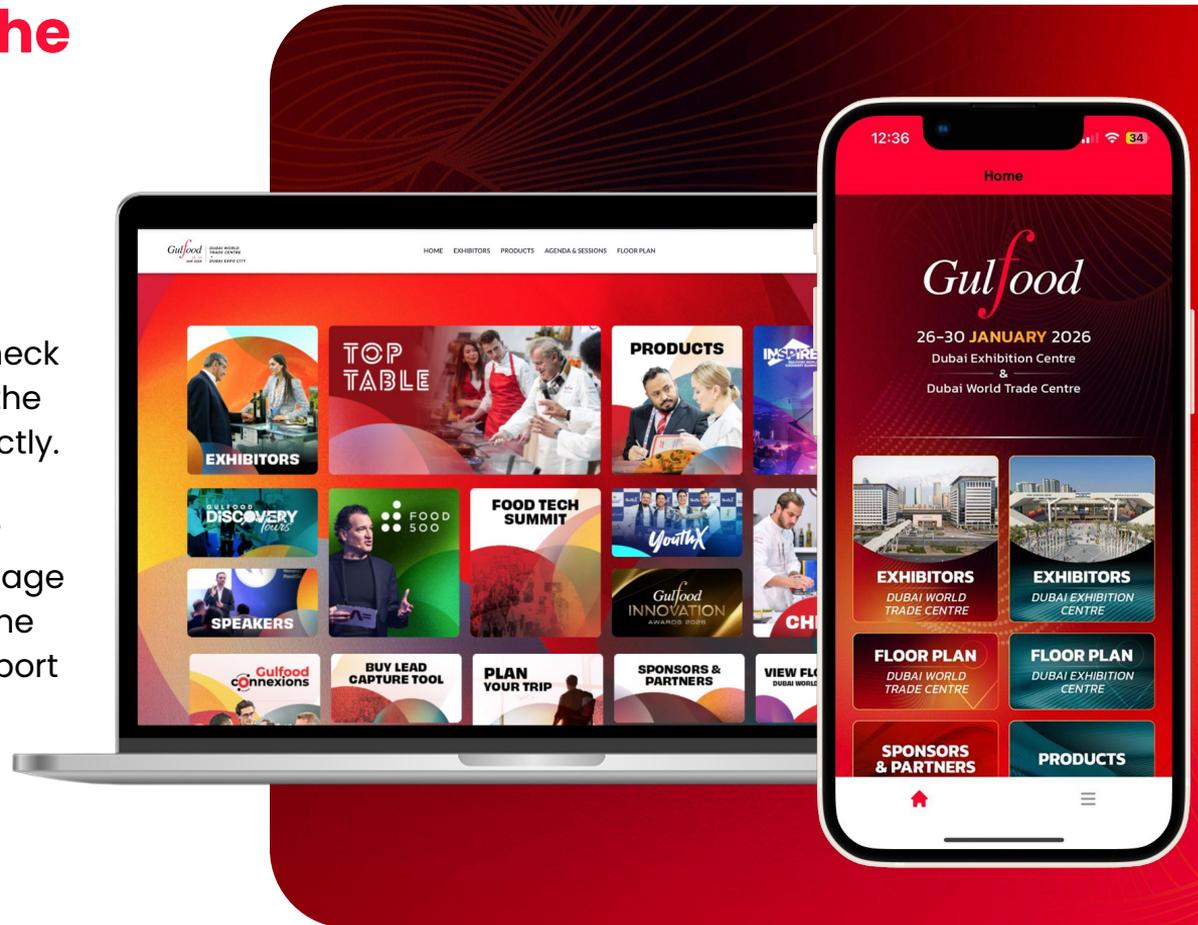

1. Login on the web version ([Click Here](#)) using your username.
2. – An OTP will be sent to your registered email.
3. Enter the OTP to complete login.
4. Go to **Profile info** → **Lead questions**.
5. Click **Add questions**.
6. Type your question and select the response type (e.g., **Multiselect**, **Radio box**, etc.).
7. Click **Save** after entering each question.
8. Once all questions are added, click **Publish questions** to make them live.

# How to customise the Lead capture tool questions.

## Troubleshooting tips:

- If you don't receive the OTP, check your spam folder and ensure the email address is spelled correctly.
- If questions don't appear after publishing, try refreshing the page or logging out and back in; if the problem persists, contact support with a screenshot.
